AP250

Automated Projector

Fast and efficient refracting is a push-button away.

Reichert®
Ophthalmic Instruments

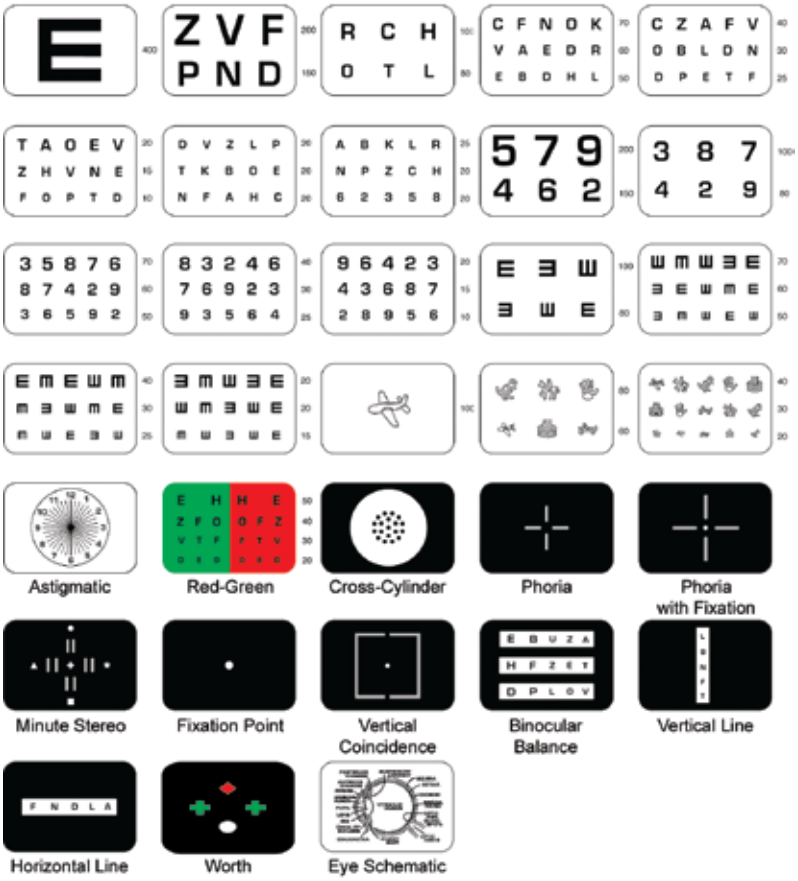
AP250 High-Resolution Ophthalmic Projector

Simple, Fast, Convient.

Fast and efficient refracting is a simple push-of-a-button with the **AP250**. Randomly select any of the 33 test charts or use the prgram feature to create two user-defined chart sequences. The masking controls allow you to isolate horizontal and vertical lines or individual characters. Additionaly, you can apply the red/green filter or polarization filter to any chart.

The **AP250**'s focusing controls are adjusted quickly and easily enabling you to sharply focus slides for projection distances of 10 to 26.5 feet.

Bright, high-contrast slide images are provided by the unit's 2000 hour long-life halogen bulb.



AP250 Specifications
