

THE LEADER IN VISION DIAGNOSTICS™

## E-Z TILT CHAIR

*Attractive, modern design.*

*Sleek, low profile hydraulic base is more attractive and less obtrusive.*

*Misty-gray painted base blends naturally with overall color scheme.*

*Fast reclining motion. The patients' own weight counterbalances the reclining motion throughout the full range of travel.*

*Exclusive double hydraulic cylinder system provides an extended 300mm range of motion — from extra low to extra high.*

*Convenient single-handed and foot operated controls for chair reclining, elevation, rotation, and headrest adjustments.*

*Unique headrest locking indicator insures patient safety and stability.*

***It Doesn't Get Any Easier.***

The **MARCO E-Z TILT CHAIR** combines the most simplified manual reclining motion with a new modern, sophisticated appearance. Utilizing an effortless, silky smooth counterbalancing system, the E-Z Tilt makes reclining any size patient easy and instantaneous; no electronic motors to slow you down! The Marco E-Z Tilt also incorporates the only double hydraulic cylinder system in the industry, creating an extended range of elevation — from extra low to extra high, that accommodates a full range of patient and practitioner sizes. The sealed hydraulic chair base is an attractive, low-profile non-leaking system that automatically “bleeds” unwanted air bubbles from the hydraulic hose. This exclusive design also

*Exclusive telescoping hydraulic cylinder system.*

*Ergonomically designed arms rotate up for patient flexibility.*

*Foot-activated rotation lock can easily be activated from both sides of the chair.*

*Single-handed headrest with locking indicator.*

eliminates many complicated and unnecessary components, resulting in much greater reliability.

*New overlay switch panels on both sides of the chair for convenient fingertip adjustments.*
